

D91 Concurrent Enrollment Crosswalk 2024 - 2025

Concurrent Enrollment

Concurrent enrollment courses are courses taken by a high school student on a college campus or online and are taught by the college faculty. Below are college courses that can be taken on college campus and will work for both high school and college credit. Idaho colleges have personnel available to assist students in planning for the transition between high school and college. Reach out to the early college/dual credit offices to learn about options available to high school students. The courses listed below have been reviewed by the D91 learning and instruction team and will meet Idaho High School Graduation requirements. If there is a course at a local college or university that is not on this list, a proposal will need to be made to the district and the course reviewed and approved before being added to the crosswalk.

Please note that the D91 Crosswalk is a working document and is subject to change.

Students can use Idaho State Advanced Opportunity funds to pay for Dual Credit and Concurrent Credit courses. Students are responsible for applying for state funding to pay for their courses. You can find more information about these funds at [Advanced Opportunities/Student Engagement & Safety Coordination /SDE \(idaho.gov\)](https://www.idaho.gov/Advanced-Opportunities/Student-Engagement-Safety-Coordination) or [Advanced Opportunities / Home \(ifschools.org\)](https://www.ifschools.org)

When taking sequenced courses (Example: Hist 101/102, Hist 111/112,), do not take them from different universities/colleges. The classes may not cover the same material/topics/timelines and may miss content applicable to the Idaho State standards.

| Concurrent Courses | Course Number | College/University | College Credit | HS Credit | Credit type | D91 Course Equivalent |
|-----------------------------------|---------------|--------------------------|----------------|-----------|-----------------|---|
| Math for the Real World | MATH108X | BYU | 3 | 1.5 | Elective/Math | Math in the Modern World |
| American Foundations 101 | AMERICAN 101 | BYUI | 3 | 1.5 | Elective | Elective |
| Writing and Reasoning Foundations | ENG 150 | BYUI | 3 | 1.5 | English | English III or IV |

D91 Dual Credit Courses 2024-2025 - Compass Academy

Dual Credit Courses offered at D91 High Schools

Dual credits are courses taken by high school students that are transcribed on their high school and college transcripts. Generally, courses are offered through the student's high school from highly certified Idaho teachers who are contracted with a college or university to teach college courses to high school students. Students must apply and register for dual credit with the college transcribing the credit. Please refer to the D91 course catalog for more course information.

Please note that the D91 Crosswalk is a working document and is subject to change.

Students can use Idaho Advanced Opportunity funds to pay for Dual Credit and Concurrent Credit courses. Students are responsible for applying for state funding to pay for their courses. You can find more information about these funds on the Idaho Department of Education website.

| D91 Courses | Course Number | College/University | College Credit | High School | HS Credit | HS Teacher |
|-------------------------------|---------------|--------------------------|----------------|-------------|-----------|-------------------|
| Elementary Spanish II | SPAN 102 | University of Idaho | 4 | CA | 3 | Briana Livingston |
| Elementary Spanish III | SPAN 201 | University of Idaho | 4 | CA | 3 | Briana Livingston |
| Elementary Spanish IV | SPAN 202 | University of Idaho | 4 | CA | 3 | Briana Livingston |
| Precalculus I/College Algebra | MATH 143 | College of Eastern Idaho | 3 | CA | 3 | Tringle Witt |
| Precalculus II | MATH 147 | College of Eastern Idaho | 5 | CA | 3 | Tringle Witt |
